Overprinting Plate varieties of the ## 8-K and 10-KB are rarities.

- Sheets of ## 8, 9, 10 and 14 (10 x 10 values) printed with stamps in the first vertical rows (Plate - 1, 11, 21, ,81, 91) without overprints. Pairs - overprinted and without overprinting very interest on postally used covers, because USSR postage stamps (without overprinting) have postal circulations inside and world-wide of Kazakhstan up to November 1993.

- Forgery: There are very many forged overprinting on original postage stamps of the USSR. There are first day covers cancelled forged pictorial postmark. First day covers of the # 14 don't possible, because 24.XI.1992 really don't sale in postal windows of the postal offices.
